Violation Detail(s):
The respondent, design applicant, failed to adequately identify all required sizes, sections and locations of members in professionally certified sidewalk shed drawings M0001792. The spacing between the joists (joist beams) was not identified and a long span (CB) condition was not accounted for and did not clearly identify the required structural framing on EQ-002. Their structural component requirement table on EQ-062 did not clearly specify required sizes for joists and headers for the various member spans. The permit was issued on these deficient drawings and the shed was found to be erected. The undocumented conditions are potentially hazardous.

Remedy: Comply with Code.
