| <b>Violation Detail(s):</b><br>Miscellaneous violations. BC3314.1 SCOPE SCAFFOLD: During inspection of an active site I observed 2 guys on top of the scaffold and 1 below it. The scaffold was missing guardrails, toe boards, planks, netting, a ladder for access, mudsills, and screw jacks. The lack of all these necessary items creates a dangerous potential for collapse and falls for the workers.                                                                                                                                                                                                                                                                                           |                                                                                                                           |                                                                                                                                                                                           |
